Tondo Planar Sconce

Type:	Sconce
Globe type:	1G9 LED
Voltage:	110V-220V compatible
Wattage:	5W
Environment:	Indoor
Installation:	Hard Wired Wall Sconce

Crafted from a continuous 25cm disc of rare natural marble, the Tondo Wall Sconce pairs a strict circular silhouette with the dramatic, unrepeatable veining of Calacatta Viola, Rosso Levanto, Nero Portoro, and Verdi Alpi. A central spherical diffuser projects an even, ambient glow across the stone's face, transforming the backplate into an illuminated architectural canvas that highlights the unique mineral depth and natural texture of each material.

Can be upgraded with dimmable globe

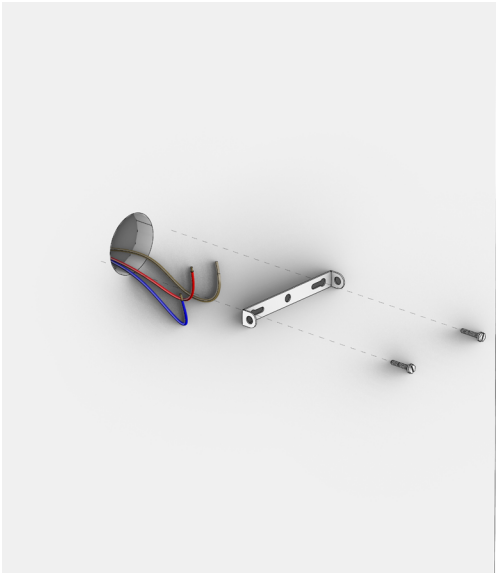

Design Highlights
Structure: Slightly curved disk Calacatta Viola Marble base (9.8" diameter / 25 cm) paired with a frosted glass globe for soft, glare-free illumination.
Lighting Effect: The frosted globe emits a warm, ambient glow, while the Calacatta Viola base glows subtly when backlit, showcasing its veins.

Dimensions & Specifications
Calacatta Viola Base: 9.8" diameter 25 cm).

Frosted Globe: 4" diameter (8 cm) – easily removable for bulb changes.

INSTALLATION

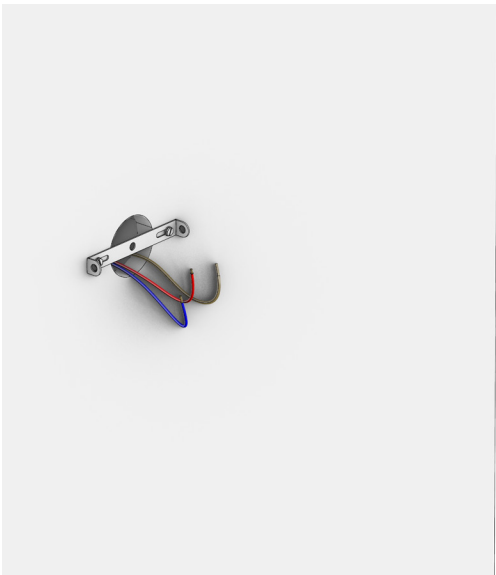

STEP 1

Locate & Mark

Hold the hanging base against the wall at the desired height. Use a level to ensure it's straight, then mark screw hole positions. Verify no electrical wires/pipes are behind marked spots

STEP 2

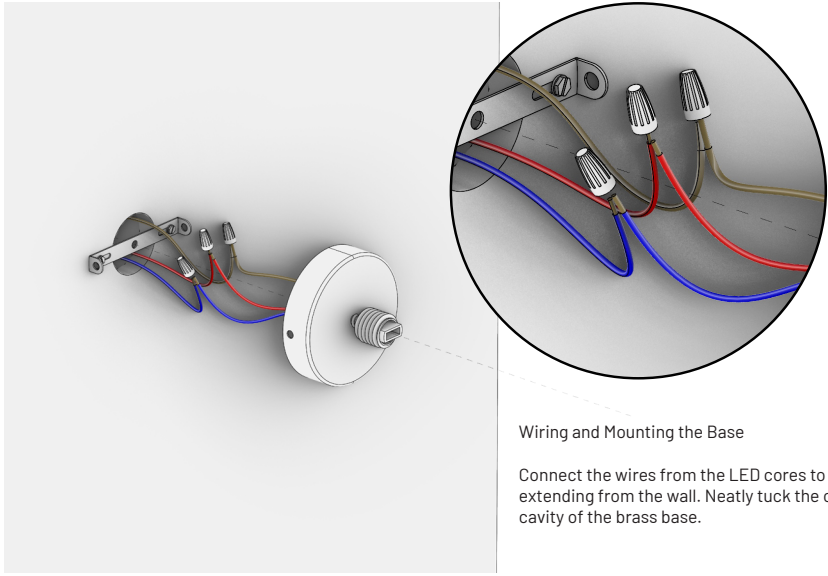

Drill & Secure

Drill holes at marked points using a masonry bit (for concrete/brick) or wood bit (for studs). Insert wall plugs (expansion anchors) if needed. Align the hanging base with holes and fasten using screws. Ensure it's firmly attached

INSTALLATION

STEP 3

Wiring and Mounting the Base

Connect the wires from the LED cores to the main power supply wires extending from the wall. Neatly tuck the connected wires inside the cavity of the brass base.

STEP 4

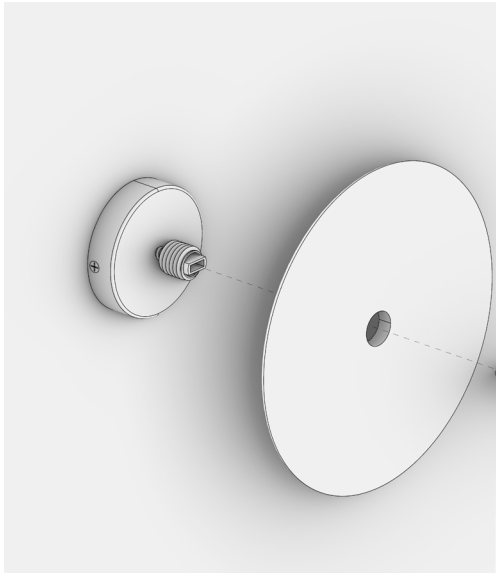

Wiring and Mounting the Base

Next, mount the brass base onto the threaded posts of the metal backplate and secure it tightly using the provided brass dome nuts.

INSTALLATION

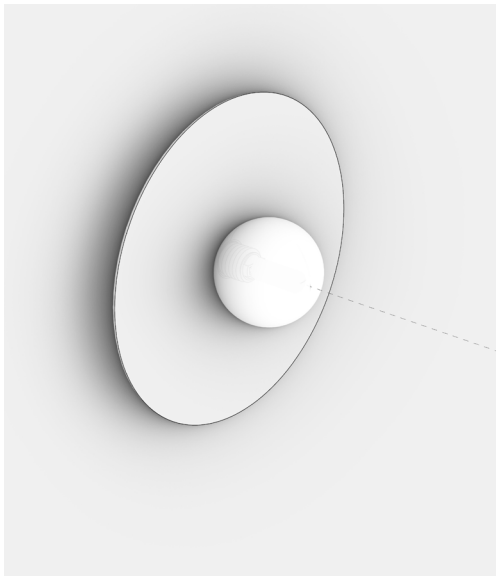

STEP 5

Attach the Spherical marble lampshade

Place the Marble disc over the threaded post. Screw on the lampshade to secure the disc piece in place and complete the installation.

STEP 6

Restore Power & Inspect

Turn power back on at the breaker. Test the light. Check for flickering, unusual sounds, or heat. If issues occur, immediately turn off power, recheck connections.
